Download Upgrade to Real Orche v1.1 Download Real Orch v.2 why does the screenshot look like this (with empty games???): I already removed and re-installed real orchestra, restarted, re-installed external programs etc but nothing changes, the screenshot is always empty...

A: After some google-ing i found that the following settings are necessary to be able to use real orchestra on windows: (in your real orchestra folder) set winsettings.ini [Virtual Machines] [Virtual.Machine.Game.Settings] DirectXSupported=TRUE

DirectSoundSupported=TRUE in your winlauncher.ini [WindowsLauncher] [WindowsLauncher.Game.Settings] DirectXSupported=TRUE

DirectSoundSupported=TRUE in win.ini [Windows] [Windows.Game.Settings] DirectXSupported=TRUE DirectSoundSupported=TRUE

DisableCDAudio=FALSE I also checked what is actually called by winlauncher during launch of real orchestra and set the following in winlauncher.ini: [Game.Settings.Windows] SameCmdProcessor=false SameCmdProcessorArguments=/base "C:\Program Files (x86)\Real

Orch\winlauncher\winlauncher.exe" -game:ORCH -service:5 -os:7 -platform:x86 -version:v1.42.0

-winlauncher:INSTALLED:WINDOWS: I am not sure why this is necessary yet, but this solved the problem for me. EDIT Just stumbled upon a topic on mediaFire, where they say it is required to set winsettings.ini to "OpenGL". You can try that. I am not sure if it will work as it did for me with the above mentioned settings. But at least its an additional hint. EDIT 2: It seems to work for me if i use OpenGL for all settings in winsettings.ini.
