Tweaking.com - Windows Repair v3.2.2 (Pro Version)

Step 1: Important Step 2: Optional Step 3: Optional Step 4: Optional Step 5: Backup Repairs Pro Features Settings

Pro Features:

 Windows Quick Links	Quick Links makes it faster and easier to access commonly used Windows apps.
 System Tweaks (Performance)	A set of system performance tweaks to help speed up your system. Run this after you have run the repairs or set it to automatic in the repair window.
 Edit Custom Scripts	This allows you to use your own console scripts (.bat), Registry Files (.reg) and VBS Scripts (.vbs). These run after the repairs are finished. There is built in keywords that you can use, this gives you a better ability at making universal scripts and registry files.
 Enhanced Windows Disk Cleanup	This tool will allow you to modify and add presets to the Windows Cleanup, enabling you to clean deeper and more efficiently than otherwise possible with CleanMgr.

Windows F8 Boot Menu:
 By Default The F8 Boot Menu Is Disabled In Windows 8 & 10. Enabling It Will Make Getting To Safe Mode Easier.

Enable

More Benefits & Features Of The Pro Version:
 (More Pro Features Coming In Future Updates.)

- Automatic Program Updates.
- Enhanced Windows Cleaning
- System Performance Tweaks
- Speed Tweak System Shortcuts

 Please Run In Windows "Safe Mode with Networking" For The Best Results. (Recommended)
