It is a perfect software for designing, 3D modeling, rendering, animation, etc.Q: How can I solve select the right screen resolution from the rotation on the device? The issue is that the simulator when you change the rotation, the resolution is changed. So, it is not possible to get the best resolution, but how can I solve this issue? A: This sounds like you are using cocos2d and you are not using sdk mode. Check your sdk mode: Q: unable to set the log level to debug in logback.xml I'm trying to set the log level to DEBUG in logback.xml, I'm using logback-core-1.1.3.jar logback-classic-1.1.3.jar Here is my logback.xml : 3da54e8ca3
