

[Microsoft Security Update Summary For January 9, 2018](#)

End of support

End of support refers to the date when Microsoft no longer provides automatic fixes, updates, or online technical assistance. This is the time to make sure you have the [latest available update or service pack](#) installed. Without Microsoft support, you will no longer receive security updates that can help protect your PC from harmful viruses, spyware, and other malicious software that can steal your personal information. For more information go to [Microsoft Lifecycle](#).
