Bob Varsha, president of business operations at IMS, said Monday that the track is "in the very beginning stages" of looking at electric technology. He told IndyStar there are no specific plans to build an all-electric track at the Brickyard, but that the motorsports industry has been extremely encouraging of the idea. "It's been very encouraging to have that feedback," Varsha said. "We're working with our partners to continue to move in that direction." The plans for an electric track at IMS came after a race last summer when the track was expected to have a fair amount of rain, but the track was still on par for the race, according to team manager Richard Dutton. The plan was not to try to change the makeup of the race because that's not feasible, but to make sure they were prepared for more rain. "We had people prepositioned on stands, we had all of the vehicles that we needed because we could count on that track to be dry by the end of the race," Dutton told IndyStar. "We weren't quite as prepared as
