[PassMark.Performance.Test.v8.0.1029.Cracked-ErES](#)

The screenshot shows the PerfectDisk Professional Business interface. The main window is titled "PerfectDisk Professional Business" and has several tabs: "Дефрагментация", "StealthPatrol", "Планирование", "Управление местом", "S.M.A.R.T.", and "Сведения". The "Сведения" tab is active, showing settings for the "Автооптимизация" (Auto-Optimization) feature.

On the left, under "OptiWrite - предотвращение фрагментации в режиме реального времени", there is a table for drive (C:) with a "Статус" column showing "Вкл." (On).

On the right, under "Автооптимизация", there is a table for drive (C:) with columns "Диск", "Метод оптимизации", "Статус", and "Режим". The "Метод оптимизации" is "SMARTPlacement", "Статус" is "Вкл.", and "Режим" is "Автоматически".

Below these, there is a section for "Настройки исключений автооптимизации" (Auto-Optimization Exclusion Settings). It includes a calendar grid for "Еженедельная схема" (Weekly Schedule) and a list of programs to optimize when running. The calendar shows all days from Sunday to Saturday as "Включенные периоды" (Included periods). The program list is currently empty.

At the bottom, there is a status bar with the text "Moving out ega80866.fon." and a progress indicator for "Обработка" (Processing).
