Available Tasks - Smart Array P420i in Embedded Slot

- Create Array**  
Creates an array from a group of selected physical drives. Once an array is created, the unused space is available for creating logical drives. A logical drive cannot be created unless an array exists.
- Manage License Keys**  
Allows the ability to add or remove License Keys. Depending on the Key(s) entered or removed, various features can become available or revoked.
- More Information**  
Provides an in-depth display of available information for the currently selected device and all of its child devices when applicable.
